The Story

The theme color of the Revogi brand is bright orange, which stands for happiness, creativity, determination and energy. Revogi is a young, dynamic and forward thinking company and so is its brand.

Our goal is to promote smart home solutions and take part in the market transition where smart home devices will be affordable and approachable for everyone. We aim to take the Smart Home from a niche market to the mass consumers and become a world class brand.

Connect, control, conserve!

Revogi products enable the user to create a safe and responsive environment in their house. That's not all!

Revogi products encourage eco-awareness and environmentally friendly attitude by providing the solutions to being aware and in control of the power consumption in their houses and thereby letting users save on their electricity bills! Locate and eliminate power vampires and standby power.

CONTENTS

Smart **Power Plug**

Control any appliance from
the palm of your hand!

CloudReady
Turn your electronic devices on&off from anywhere in the world.

PowerMeter
Measure real time power load of appliance.

Schedule
Schedule to turn on&off the appliance.

Socket Reboot
Automatically restart your router when the internet is down.

Power
Turn on&off the appliance.

Energy
Monitor the power consumption history of the appliance.

Overcurrent Protection
Minimize the risk and improve safety!

Amazon Echo Voice Control
Ask Alexa to turn your device on or off.

Communication

Humidity & Temperature Sensor

Model: SSW006
Power Source: AA size, LR6 type, 2PCS (included)
Battery Lifespan: 1 year
Temperature Measurement : -20~60℃
Tolerance: ±0.3℃ (10~55℃), ±0.5℃ (-20~60℃)
Humidity Measurement: 5% ~ 95%RH ,
Tolerance : ±3%RH
Range: 70M, 230Ft Min.
(depending your home's construction)
Communication : Proprietary 868/915MHz
Dimensions: 46.8x66.8x30.5mm, 1.84X2.63X1.20inches

Smart Button

Model: SSW004
Power Source: CR2032(included)
Battery Lifespan: 5years
(10 times trigger per day)
Range: 70M,230Ft Min.
(depending your home is construction)
Communication Protocol: Proprietary 868/915MHZ
Operating Temperature: 32 to 104F,0 to 40C(indoor only)
Dimensions: 51X51X19mm,2X2X0.75inches

Door Sensor

Model: SSW002
Power Source: CR2032 (included)
Battery Lifespan: 5years(10 times trigger per day)
Range: 70M, 230Ft Min. (depending your home's

construction)
Communication Protocol: Proprietary 868/915MHz
Operating Temperature: 32 to 104°F, 0 to 40℃ (indoor only)
Dimensions: 58X29X15.3mm, 2.28X1.14X0.6inch
52X11.5X13.3mm, 2.05X0.45X0.52inches

Motion Sensor

Model: SSW003
Power Source: AA size, LR6 type, 2PCS (included)
Battery Lifespan: 2 years (100 times trigger per day)
Field of View/Focal Length:120 degrees,5M
Range: 70M, 230Ft Min. (depending your home's

construction)
Communication Protocol: Proprietary 868/915MHz
Operating Temperature: 32 to 104°F, 0 to 40°C (indoor only)
Dimensions: 46.8 x66.8x31.5 mm,1.84X2.93X1.24inches

Water Leak Sensor

Model: SSW007
Power Source: AAA size, LR03 type, 2PCS (included)
Battery Lifespan: 3 years (1 time trigger per day)
Range: 70M, 230Ft Min.
(depending your home's construction)
dB Output: 85dB/10cm
Communication Protocol: Proprietary 868/915MHz
Operating Temperature: 32 to 104°F, 0 to 40°C (indoor only)
Dimensions: 71.5 x71.5x26 mm, 2.81X2.81X1.02inches

Smoke Detector

Model: SSW005
Power Source: 6LR61 9V (included)
Battery Lifespan: 5 years
Range: 70M, 230Ft Min. (depending your home's

construction)
Communication Protocol: Proprietary 868/915MHz
Operating Temperature: 32 to 104°F, 0 to 40°C (indoor only)
Dimensions: 106X106X34.3mm, 4.17X4.17X1.35inches

Smart home gets smarter with voices

The Amazon Echo has quietly become the hottest smart home product on the market.
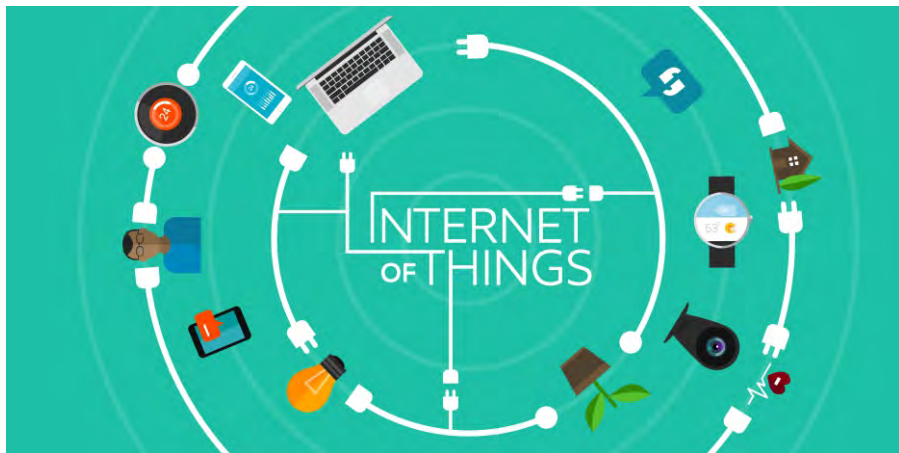

The Revogi Wi-Fi connected devices' integration with Echo Skills allow a simple on/off switch in more natural way by voice.

Unlike competing devices that use different wireless protocols, Revogi smart devices work over Wi-Fi, making it easy to connect to Alexa without the need for a hub.

We are getting our smart lighting HomeKit-enabled, so consumers can organize our smart lighting gadgets by room, manage multiple at the same time, control them with Siri, and more.

We are still continuing our efforts for more and more protocols to achieve more interoperability!

22

Interoperability and API Framework

<API>

Interoperability

</API>

We believe that APIs lead the way to better interoperability for IOT. Revogi is delivering an application programming interface (API) program that enables partners to build application software that interacts with numerous Revogi connected devices.

For homeowners, the Revogi Cloud Sense API means that their connected devices will integrate seamlessly with products and services from similar companies striving to give people control over their home's energy efficiency via smartphone, tablet or computer.

Most recently Apple introduced HomeKit, a new framework that delivers a common protocol for simple set up and communication with devices at home, including integration with Siri.

As MFi Licensee, Revogi is now enrolling for Apple's HomeKit and Beacon Program to guarantee user's experience. We are now at the final stage to support Homekit and enable users to securely pair and control Revogi devices throughout the home .
